Arindam Lahiri, CEO, **ASDC**

News

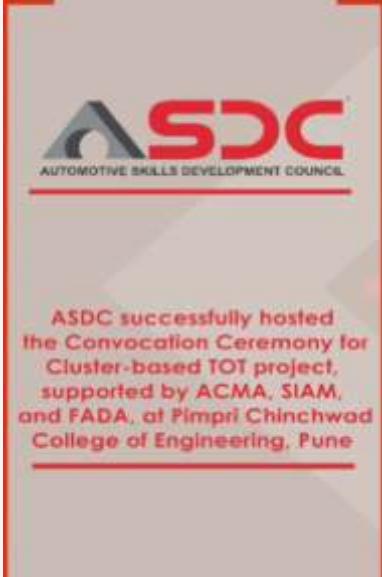

The Shakti Program

Under the "Shakti Program," underprivileged women are undergoing driving training facilitated by the municipal corporation. Their remarkable enthusiasm during these training sessions is evident. The Bihar Skill Development Missions initiative, with oversight from both the Patna Municipal Corporation and Automotive Skill Development Council, aiming to equip them with licenses and integrate them into the local workforce effectively.

As part of the #BSDM initiative, Dr. B. Rajendra, Principal Secretary of the department, inaugurated a training program for 350 women to become e-rickshaw drivers. The event was attended by Rajiv Ranjan, Additional Chief Executive Officer of Bihar Skill Development Mission and Mission Director @sanjay, along with EVP ASDC @meenu.

Listen to CEO Mr. Arindam Lahiri on Aap Ki Baat, talking about vital skill development and discover how ASDC is empowering the youth with varied automotive job roles.

Testimonial

Aditya Deaulgaonkar
Pune

Thank you Note to ASDC

Myself Aditya Deaulgaonkar BE(Mechanical) with Honours of Electric Vehicle student from Pune University just completed my graduation. I completed two courses provided by ASDC i.e EV Shiksha Design by Toyota for HEV and second course is Fundamentals of EV Chargers conducted by Bolt. Earth in association with ASDC. From both the respective courses I had managed to learn about firstly from HEV course was Types of Hybrid system, Type of Drive used in AC compressor, components of HEV, Driving condition when the vehicle is in motion, which components is good for its features, also it's emission free and which type of arrangement gives better efficiency for driving vehicle. This all aspects are covered under that course and I'm Thankful to ASDC and Toyota of their joint venture to provide courses for free of cost to enhance students' knowledge and skills.

Also, I completed another course of EV Charging Infrastructure. It is also helpful for me to knowing the Types of charging stations and which level of charging station is suitable for vehicles according to their need. Also known about On- board charging system, also the how much time it takes to complete the Charging cycle for respective vehicle and all. This all I learnt from that course.

So that both the courses were helpful for me to enhance my knowledge and skills related to EV. So, Thanking you ASDC to provide that valuable course for free of cost. I hope you will provide placement regarding that also.

Thank you ASDC

asdc.org.in  @AutomotiveSkillsDevelopmentCouncil  @SKILLASDC  @asdcindia  asdc_india  Automotive Skills Development Council

Through ASDC's free courses, Aditya Deaulgaonkar knowledge has reached new heights. From HEV Design to EV Charging Fundamentals, these free courses empowered him, and he is grateful for the invaluable knowledge boost.

**INDIA HOLDS
GREAT PRIDE IN**

Chandrayaan 3

a genuine demonstration of the
pinnacle of mobility.

ASDC

Congratulates

the successful touchdown of the
Chandrayan 3

asdc.org.in [@AutomotiveSkillsDevelopmentCouncil](#) [@SkillsASDC](#) [@asdcindia](#) [asdc_india](#) [Automotive Skills Development Council](#)

Chandrayan 3

India's pride soars with Chandrayaan 3, a remarkable feat of mobility and innovation.

Congratulations from ASDC on its triumphant touchdown, marking the start of a new era in global space exploration.
