Placement Initiatives

Mechatronics Specialized

About SoSE Schools: **Resource Person JD**

The High-End 21st Century Skills ASoSEs provide an education focused on skills and entrepreneurship development relevant to the fast-changing 21st century. The schools aim to build specialised skills in students across a variety of emerging and high-demand fields that will prepare students for employment in aspirational roles immediately after schooling, along with opening up pathways for further studies at the university level. The curriculum and content will be developed in collaboration with eminent institutes and organisations. Masterclasses, internships, apprenticeships, immersion visits, and live projects with industry partners will provide experiential learning opportunities to students and help them build industry-relevant skill sets.

Role- Mechatronics Specialised Resource Person (Grades 9, 10, 11 and 12)

Key Responsibilities:

- Conducting experiential Mechatronics classes with the secondary (9-10) and Senior secondary (11-12) class students (approximately 12-15 classes per week)
- Co-creating Curriculum and Assessments with Industry and Academia Partners
- Conducting and Evaluating assessments with Industry and Academia Partners
- Mentoring students in the domain area
- Formulating and managing Mechatronics Clubs in schools
- Planning and conducting Exposure Visits for Students
- Planning and organising Guest Lectures of Industry Experts
- Attend weekly review meetings and debrief sessions with the Knowledge Partner
- Other administrative and miscellaneous work in a school with the stakeholders

Preferable additional skills and qualifications:

- Additional courses, certifications or projects on PLC, Industrial Robotics and 3D Design
- Any other educational fellowship experience would be preferred. (TIF, Gandhi, Azim Premji, etc.)

Required Essential Educational Qualifications:

- B.E./B.Tech in Mechatronics/ Mechanical/ Automobile/ Electronics and Tele Communication Engineering/ Electronics and Communication/ Electronics and Instrumentation Engineering, Electrical Engineering or other related fields from a recognised university
- M.Tech (Mechanical, Electronics and Tele Communications, Mechatronics, Electronics and Communication Engineering or other related fields from a recognised university)

Required Skills:

- Have 0-4 Years of experience in the domain of Mechatronics. If not, and you want to get your hands dirty, you are most welcome.
- Can facilitate experiential Mechatronics Curriculum in secondary classrooms.
- Can articulate ideas and course curriculum well to the students.

We also want you if:

- You have taken a risk and failed!
- Your mission statement is "I can Figure it out."

REMUNERATION	LOCATION	EMPLOYMENT TYPE	WORK EXPERIENCE
50,000- 80,000/- Month* (10% TDS to be deducted)	NEW DELHI	6 months- 1 year (Contractual)*	0-4 Years of Experience *Based on experience

Work Culture:

This role offers you the opportunity to be part of an exciting journey to revolutionise school education in Delhi by working on the Delhi Board of School Education model. In this journey, you will be the on-ground problem solver and change-maker responsible for bringing that change. At the same time, you'll be working on the ground with various stakeholders such as school principals, teachers, industry experts, Knowledge partner's Core Team, etc.

For more details, Please write us at :
recruitment.asdc@gmail.com | garima@asdc.org.in

Last date to apply
27 March 2023

If you're looking for a job in the Mechatronics industry and if your specialization aligns with the role requirements mentioned above, write to us at recruitment.asdc@gmail.com.

Road Safety Campaign with Auto Guru

We are proud to announce our public awareness campaign today at Amity University in Noida, focusing on road safety for youth in collaboration with Auto Guru India

HIGH SPEED DRIVING ROAD SAFETY CAMPAIGN

An initiative to make our roads safer and inculcating a sense of responsibility among the young vehicle users.

By Automotive Skills Development Council (ASDC) & AutoGuru India

SESSION DETAILS -

- A 90 minutes interactive session that can make your life safer.
- On candidate successful completion certificate will be awarded.
- A free of cost session

GLIMPSES FROM High Speed Driving Awareness Campaign

On road safety for youth in collaboration with AutoGuru.

The collage shows various moments from the campaign: a group of men in suits, a panel discussion with three men, a man speaking at a podium, and a large group of people standing together.

Glimpses from Road Safety Campaign

Road safety is a crucial matter for India as a nation to work together towards. It was important to educate the youth and create awareness for road safety. Thus a successful campaign was executed at the Amity University, Noida in collaboration with AutoGuru India.
