Automotive Skills Development Council - Newsletter

ISSUE 69 | JUNE 2023

**Ensuring Right Skills for
Sustainable Development**

From The CEO's Desk

The Automotive Skills Development Council has always been an integral part of the country's workforce generation process. Through the course of time ASDC through its different off-line and online courses has been aiding the employees for the future of the automotive industry of the country with an in-depth know-how of the cutting edge technology.

Arindam Lahiri, CEO, ASDC

Highlights

We are Looking for Proposals under NAPS

REQUEST FOR PROPOSAL (RFP)

APPRENTICESHIP STUDY (NAPS) PREPARATION

ASDC is looking for agencies for preparing an apprenticeship study.

The objective of this Request for Proposal (RFP) is to create a study on apprenticeships, specifically for the automotive sector in India.

The study will delve into the apprenticeship ecosystem within the automotive industry and understand the potential it holds.

Scan here for RFP details.

From Pollution to Solution: How EVs and HEVs Can Transform India's Transportation Sector

Neha Senary
Chief - Strategy & Operations,
ASDC

India is one of the fastest growing economies in the world, and a transportation sector that has been responsible for a significant portion of the country's greenhouse gas emissions. In recent years, there has been a growing awareness of the need to reduce pollution and transition to more sustainable forms of transportation. Electric and hybrid vehicles (EVs and HEVs) have emerged as a promising solution to the problem of pollution in India. This article explores the current state of EVs and HEVs in India, the challenges that must be overcome, and the opportunities that lie ahead. Additionally, it will discuss the skills required for a successful transition to EVs and HEVs in India.

KNN

Second edition of National Automobile Olympiad commences across India

New Delhi, May 29 (KNN) Automotive Skills Development Council (ASDC) on Monday announced commencement of the second edition of the National Automobile Olympiad, in association with the National Program on Career Awareness (NPOCA).

The Olympiad aims to create awareness about the automotive industry among students and to showcase their skills, creativity, and innovation in a competitive environment, which can help them develop important skills like problem-solving, critical thinking, and teamwork.

Second edition of National Automobile Olympiad commences across India

Expressing enthusiasm, Anand Lahiri, CEO, ASDC, said, "We have spearheaded numerous projects aimed at upskilling and competitively positioning the industry. The National Automobile Olympiad opens today and will continue until September 15, 2023."

"The competition is open to students from classes 6 to 12 across all education boards. It will be a hybrid event, with the first two stages conducted online, followed by the finals in Delhi and participants should be willing to travel for the finals," he added.

There is no age restriction for students in the specified classes.

Participants can register for free through the official website www.asdc.org.in/nao. The medium of instruction will be in English and Hindi, ensuring accessibility for all participants.

The results of the first stage of the National Automobile Olympiad will be announced in November, with ASDC unveiling the winners in December and winners will be recognized by cash prizes, certifications, and an international study tour.
