Upskilling with Foresight

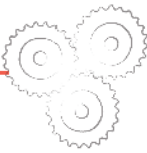

From The CEO's Desk

At ASDC we are constantly looking to offer a variety of courses targeted to help the existing students, working professionals and trainers learn new skills and sharpen the existing ones.

Arindam Lahiri, CEO, ASDC

News

Response on Union Budget 2023-24

“

The announcements made in the Union Budget regarding the promotion of electric vehicles, skill development and focus on India's Amrit Peedhi -our youth, are very promising. The government's decision to exempt capital goods and machinery required for the manufacturing of lithium-ion cells for EVs, as well as reduce custom duties on lithium-ion batteries, together with the PLI schemes and Green Hydrogen mission incentivises manufacturer to accelerate their clean transport alternatives.

As Automotive Skills Development Council (ASDC), we applaud the launch of PM Kaushal Vikaas Yojana 4.0, an exciting initiative for the Indian youth to skill up in the new age courses required for Industry 4.0. This scheme, with its emphasis on industry partnership, covers a wide range of topics including robotics, mechatronics, IoT, 3D printing, and other soft skills critical to Indian manufacturers in the coming years. The setting up of 30 Skill India International Centres across states will provide our youth with local resources to upskill for careers in India and abroad.

”

Vinod Aggarwal

Chairperson
Automotive Skills Development Council
MD & CEO - VE Commercial Vehicles Ltd

Mr. Vinod Aggarwal, Chairperson at ASDC shared his views on the Union Budget 2023 - 24.

Thank You Note to EICHER & ASDC

I am writing this to show my strong gratitude towards ASDC for offering me the online course of Basics of Electricity.

The above course covers the basic but most important topics that have general application in our day to day life. Like basic terms, circuit protection, battery, switch, fuses multimeter, starter motor etc.

After completing the above course from ASDC, which is free of cost and takes only one hour of our life and clears a lot of concepts.

At last I want to thank ASDC for this course

Thank you ASDC
Atul Yadav
