ISSUE 21 | NOVEMBER, 2018

❑ BE SKILLED, BE INDEPENDENT

Partnership with TCS:

Readers would recall that ASDC has collaborated with Tata Consultancy Services iON, MoU for complete re-imagination of the assessment process focussing on digital assessment with less human interference, resulting in credible assessment and quality output. The team is currently working towards completing the assessment module and will soon align the first batch of Assessment of Assessors.

Subject Matter Expert Groups

In the month of November 2018, ASDC Expert Group meeting for Service was held at ASDC Office on 26th November 2018. Experts from Mahindra and Mahindra, Honda Cars India, Honda 2 Wheelers, TVS, Tata Motors, Nissan, etc gave their inputs for improvement of Qualification Packs as per the Industry standards.

BRICS – Future Skills Challenge 2018

During the period under review ASDC successfully conducted two recruitment drives at Gaziabad and Mumbai these were held at Ajay Kumar Garg Engineering College and Jhunjhunwala College respectively. There was active participation by the industry and LOI's were distributed to the shortlisted candidates.

Recruitment Drives and Job Melas

During the period under review ASDC successfully conducted two recruitment drives at Gaziabad and Mumbai these were held at Ajay Kumar Garg Engineering College and Jhunjhunwala College respectively.

There was active participation by the industry and LOI's were distributed to the shortlisted candidates.

World Skills Asia Competition-2018

The First World Skills Asia Competition was held at Abu Dhabi National Exhibition Centre (ADNEC) during 27th to 29th November 2018 with 20 countries participating in the event. Mr. Govind Sonkar (UP) and Mr. Prakash Sharma (Jharkhand) both from MSIL participated in the Car Painting category; Mr. Tushar Phadatare (Maharashtra) and Mr. Shabarinathan (Karnataka) both from Tata Motors participated in Automobile Technology category. This served as an integral part for the candidate's international exposure prior to the finale at World Skills, Kazan 2019.

Website

Keeping our focus on developing a new website which is purposeful, integrated, consistent, flexible, engaging, scalable, content-rich for effective content dissemination the new website has been launched during the period under review. Phase two of the development is on its way and the website will be completed by January 2019.

Training of Trainers:

Keeping our primary objective of Quality Training in mind, we maintain a very keen focus on the quality of our Trainers, ASDC conducted two TOT programmes, training 46 Trainers during the period under review, in Madhya Pradesh and Jharkhand.

ASDC initiative of Skilling in Higher Education:

Readers would recall that ASDC has been making efforts towards furthering the collaboration between industry and academia through skill interventions for making Skills aspirational and integrated with academic pathways, towards appropriate career pathways.

Towards this purpose an MOU was signed between ASDC and Bhartiya Skill Development University on 29th November 2018. The partnership focuses on assuring credibility and reliability to the skill assessment process. Going forward we are planning to form expert group consisting of members from Industry, Academics and Skill Institutes to take forward and strengthen the components of skill Ecosystem.
